*Table Grapes*  
 FROM PERU

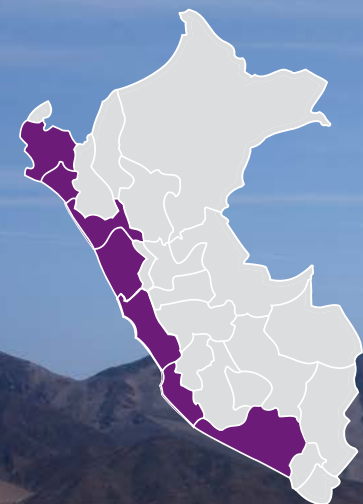

# Our Grapes

## OUR PRIDE

Peru is endowed with favorable geographical location. Thus, it has a great variety of climates setting excellent conditions for the production of many table grapes varieties.

Peru Table Grapes Producers Association – PROVID, is a nonprofit association founded in 2001, which nowadays represents 80% of the volume of Peruvian table grapes exported to the world. Today we have 71 companies associated. Our Associates are located throughout the Peruvian Coast, favored by suitable weather conditions for cultivating different varieties of table grapes such as Red globe, Flame Seedless, Sugraone, Thompson Seedless, Crimson Seedless among others, enabling us to have a production from September to March. Peruvian table grapes are well known for its excellent flavor, quality and good sanitary conditions.

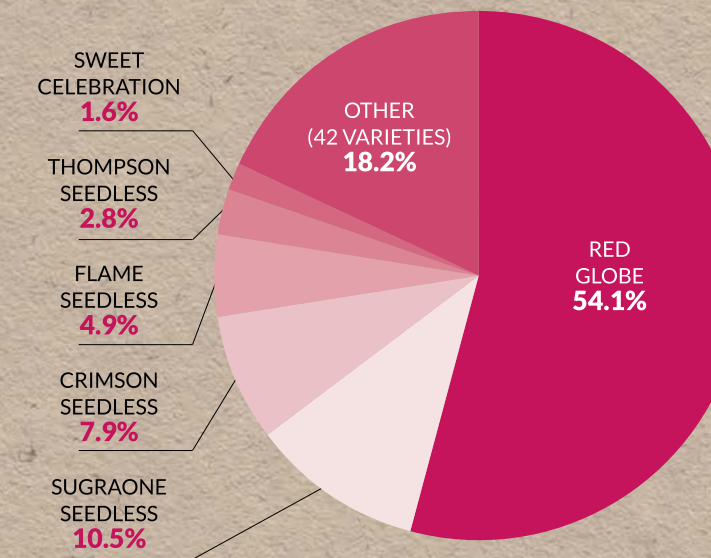

Also, our Associates have been certified for their good agricultural practices including certifications like GLOBALGAP, TESCO, NATURE'S CHOICE, USGAP and the packing houses are certified with HACCP and BRC among other certifications.

All of these allow us to export to diverse and demanding markets such as the United States, Europe and Asia.
